

## Applicant and Parent/Guardian Acknowledgement

The admissions process for National Honor Society at Grinnell High School has undergone quite a few changes in the last ten years. We have worked to make the selection process as open and transparent as possible. To that end, all our governing documents and the processes we use to select members are freely available on the application website for anyone to look over.

After both the applicant and his/her parent/guardian have had a chance to look over the available documentation, we ask that both parties briefly look over the summary points below and acknowledge that they understand the process by which applicants will be judged.

We, the undersigned, are aware that minimum academic achievement for entry into National Honor Society (NHS) is a cumulative GPA of at least 3.75. Furthermore, we, the undersigned, acknowledge that the successful applicant is expected to maintain this GPA in order to retain membership in NHS.

We, the undersigned, are aware that academics are merely part of the process for induction, and that an anonymous committee of teachers will also consider the applicant's character, service, and leadership as have been observed throughout the duration of the applicant's time at Grinnell High School.

We, the undersigned, are aware that participation in this process is a privilege, not a right, and will respect the process regardless of the outcome for the applicant.

We, the undersigned, acknowledge that it is possible that the applicant may not be granted acceptance, even after filing an appeal.

We, the undersigned, understand that any misconduct as outlined in the student handbook and constitution, may result in dismissal from NHS.
